

Gregory Gonzalez Martinez

Full Stack Developer | Java, Node.js, React & Vue

📍 Tuluá, Valle del Cauca, Colombia ✉ gregory.gonzalez.martinez2@gmail.com ☎ 316 6746519

🌐 gregory-gonzalez-martinez 🐙 GregoryG8

Summary

Full Stack Developer with a strong background in building scalable web architectures, designing RESTful APIs, and creating modern user interfaces. Specialized in **Node.js (Express)**, **Java (Spring)**, **TypeScript**, **React**, and **Vue**, alongside relational database management (PostgreSQL, MySQL). Proven track record of leading frontend teams, developing reusable Design Systems, optimizing client-server communication, and debugging legacy codebases in high-impact environments.

Experience

LinkTIC, Mid-Level Full Stack Developer

Bogotá, Colombia
Sept 2024 – present
2 years

- Designed and developed robust, scalable RESTful APIs for SGDA services integration, ensuring seamless and secure client-server communication.
- Administered and optimized relational databases, writing complex SQL queries to improve response times and support business logic.
- Led the frontend development team, managing task allocation, reviewing Pull Requests (PRs), and ensuring high standards of code quality.
- Designed and implemented a reusable Design System for the company's SGDA projects, significantly accelerating UI development times.
- Identified, debugged, and resolved critical bugs in legacy codebases across frontend, backend, and databases, optimizing overall system performance.
- Trained and mentored the team in web architecture best practices, modern technologies, and agile methodologies (Scrum).

ASER IT, Frontend Developer

Madrid, Spain
Oct 2023 – Mar 2024
6 months

- Developed and maintained the CogniSAP platform (cognisap.com) frontend using React, JavaScript, and TypeScript, ensuring responsive design and API integration within agile sprints.

Education

Tech-nolo-gist **Universidad del Valle**, Information Systems Technology

Tuluá, Valle del Cauca, Colombia
June 2018 – Aug 2023

Skills

Backend: Java, Spring, Node.js, Express, Python, RESTful APIs, SQL

Frontend: React, Vue, TypeScript, JavaScript, HTML5, CSS3, Angular, Design Systems

Databases: PostgreSQL, MySQL, Complex SQL Queries, Data Modeling

Tools & DevOps: Git, Azure DevOps, Figma, CI/CD, Scrum / Agile

Languages: Spanish (Native), English (B1 - Technical Reading & Documentation)

Certifications

Meta Front-End Developer

Meta

Node and Express Essentials
