Summary

Full Stack Developer (Information Systems Technologist) specialized in building scalable web architectures, RESTful APIs, and distributed systems using Node.js (Express), Java (Spring), React, and Vue. Experienced in leading frontend teams, creating reusable Design Systems, and optimizing legacy codebases. Focused on improving client-server application performance and development efficiency.

Experience

- LinkTIC**, Mid-Level Full Stack Developer

Bogotá, Colombia (Remote)
Sept 2024 – Aug 2026
2 years

 - Designed and developed robust RESTful APIs for SGDA service integration, ensuring high availability and secure client-server communication.
 - Managed and optimized relational databases (PostgreSQL, MySQL), refactoring complex SQL queries to reduce response times by 35%.
 - Led a frontend team of 4 developers, managing task allocation, Pull Request (PR) reviews, and enforcing clean code standards.
 - Designed and implemented a reusable Design System for the SGDA suite, reducing UI development time for new interfaces by 40%.
 - Debugged and resolved 100+ critical bugs in legacy codebases across frontend, backend, and database layers, stabilizing overall system performance.
 - Mentored and trained the team on web architecture, CI/CD, and agile methodologies (Scrum), increasing sprint delivery velocity.
- ASER IT**, Frontend Developer

Madrid, Spain
Oct 2023 – Mar 2024
6 months

 - Developed and maintained the frontend of the CogniSAP platform (cognisap.com) using React, JavaScript, and TypeScript within agile sprints.
 - Implemented 100% responsive interfaces integrated with RESTful APIs, ensuring optimal user experience and cross-platform compatibility.

Education

- Asso-
ciate
De-
gree /
Tech-
nolo-
gist**

Universidad del Valle, Information Systems Technology

Tuluá, Valle del Cauca,
Colombia
June 2018 – Aug 2023

Skills

- Backend:** Java, Spring, Node.js, Express, Python, Go, C, RESTful APIs, RPC, SQL
- Frontend:** React, Vue, TypeScript, JavaScript, HTML5, CSS3, Angular, Design Systems
- Databases:** PostgreSQL, MySQL, Complex SQL Queries, Data Modeling
- Tools & DevOps:** Git, Azure DevOps, Figma, CI/CD, Scrum / Agile
- Languages:** Spanish (Native), English (B1 - Technical Reading & Documentation)

Certifications

Getting Started with Go	University of California, Irvine
Meta Front-End Developer	Meta
Node and Express Essentials	IBM
Developing Front-End Apps with React	IBM
Programming for Everybody (Getting Started with Python)	University of Michigan
JavaScript Programming Essentials	IBM
Scrum Fundamentals Certified	Scrum Study
